

N-A MTP

Netherlands - African Meat Technology Partners

N-A MTP supports customers all over Africa with the development and realization of up to date hygienic abattoir projects.

- Slaughter lines and de-boning lines for cattle, pigs, sheep and goats.
- Design and engineering of complete abattoir projects.
- Technical services: Installation and commissioning, project management, maintenance, training.
- Consultancy: Feasibility studies and business plans, master plans, site inspection of existing abattoirs. Advice for rehabilitation or upgrading.
- Support with project financing (acquisition of grants, loans, subsidies, venture capital). Partner search.

Our partner LINECO BV is responsible for marketing, export sales and contracting in countries in Africa. For more information please contact Robert Lintvelt.
